THE MAGAZINE OF WESTERN LIVING

INDEX TO ALL EDITIONS • JANUARY 1960 TO DECEMBER 1960

HOW TO USE THIS INDEX

SUNSET *is published each month in three editions:* Northwest edition for Washington, Oregon, and Idaho; Central edition for northern and central California, Nevada, and Utah; Southwest edition for Southern California, southern Nevada, Arizona, and Hawaii. Because of climate and other differences, many SUNSET articles run in only one or two of the three editions.

You can tell which edition of SUNSET *you read* by looking on the front cover of the magazine. Near or within the bottom of the capital letter S in SUNSET you will see one, two or three diamonds. Three diamonds ◆◆◆ mark the Northwest edition, two diamonds ◆◆ the Central edition, one diamond ◆ the Southwest edition.

In the index listings, N denotes Northwest edition; C, Central edition; S, Southwest edition. The word "all" tells you that an article has appeared the same month and page in all three editions. Index listings are written as follows: May 76 N, C (May, page 76 Northwest and Central editions); June 178 S (June, page 178 Southwest edition).
